Subject: Error in job competition posting

Good Afternoon,

I'd like to take the time to clarify a mistake that was included in the document for the leadership role competition that was sent to the community and posted online yesterday August 11, 2020.

The letter sent stated that the competition was for a full-time position. This information is incorrect and this posting is intended for a seasonal worker position within the leadership department. I apologize for the miscommunication and any inconvenience this may have caused.

Sincerely,

Todd Williams.

Acting Director of Education
